SUBSTITUTION OF FACILITIES

The description of the Facilities and Services, as set forth above, is general in its nature. The final nature and location of the Facilities and Services will be determined upon the preparation of final plans and specifications. The final plans may show substitutes in lieu of, or modification to, the proposed Facilities and Services in order to provide the public facilities necessitated by development occurring in the District, and any such substitution shall not be a change or modification in the proceedings as long as such substitute facilities and services serve a function or provide a service substantially similar to that function served or the service provided by the Facilities and Service described above.

B. BOUNDARIES OF COMMUNITY FACILITIES DISTRICT

The boundaries of CFD No. 08M coincide with previously established parcels as shown on the latest County Assessor maps or approved parcel maps and include all properties on which special taxes may be levied to pay for the costs of services.

The boundaries of CFD No. 08M are described on "Exhibit A", reduced scale maps entitled "Proposed Boundary Map of Community Facilities District No. 08M" which are attached hereto and incorporated herein. A full-scale map is on file with the Clerk of the City of Chula Vista and was recorded with the County Recorder, County of San Diego in Book 36 page 39 in the Book of Maps of Assessment and Community Facilities Districts, Instrument Number 2002-0751574.

C. COST ESTIMATES FOR SERVICES

The establishment of CFD No. 08M was required to fund the perpetual operation and maintenance of slopes, medians, parkways, trails, perimeter walls, perimeter fencing and storm water treatment facilities associated with Village 6, McMillin Otay Ranch and Otay Ranch Company. The initial budgets are estimated to be approximately \$530,581 for Improvement Area No. 1 and \$316,696 for Improvement Area No. 2.

For the estimated location of the improvements and a more detailed cost estimate, please refer to "Exhibit B".

D. RATES AND METHODS OF APPORTIONMENT OF SPECIAL TAXES

The Resolution of Intention (Resolution No. 2002-319) generally sets forth the rates and methods of apportionment of the special tax, which allows each property owner within the proposed CFD to estimate the annual amount that would be required for payment if a special tax were levied. The Rate and Method for Improvement Area No. 1 has been modified by the Resolution Proposing to Modify the Resolution of Intention (Resolution No. 2002-397).

The modification to the Rate and Method of Apportionment for Improvement Area No. 1 includes the ability to levy for additional landscaping including interior parkways, slopes along Viewpark Way and the slope associated with the Open Space Lot north of R-10. The maintenance of this additional landscaping has increased the Maximum Special Tax Rates and property owners may expect to see their annual Special Tax increase by approximately 24% from \$0.208 per square foot to \$0.258 per square foot.

For particulars of the rates and methods of apportionment, see "Exhibit C", Rates and Methods of Apportionment of Special Tax.

E. GENERAL TERMS AND CONDITIONS

Services

The description of the Services, as set forth herein, is general in nature. The final nature and location of the facilities that will be maintained will be determined upon the preparation of final plans and specifications or the approval of services.

F. CONCLUSION

Based on information provided by, and discussions with, the Agency and the property owners, the Services and Facilities listed in this Report are those that are necessary to meet increased demands placed on the Agency as a result of development occurring within the boundaries of the City of Chula Vista. Further, it is my opinion that the special tax rates and methods of apportionment as set forth in "Exhibit C" are equitable and are not discriminatory or arbitrary and permit a purchaser of property subject to the special tax a fair means of determining his or her obligation.
